

Cee-Bee Aviation Products introduces R-681 Aerosol

Developed in conjunction with the US Navy (NavAir-Pax River) to meet the new MIL-PRF-85570, Type 1A specification, this product will provide a more cost effective method of performing spot cleaning on aircraft.

R-681 Aerosol is a repackaged version of the successful R-681 concentrate (MIL-PRF-85570, Type 1) aircraft cleaner. This new version is a ready-to-use aerosol product that has been developed to replace solvent aerosol products for spot-cleaning applications.

Available in cases of twelve 16 ounce cans, this biodegradable product will provide the user with a more environmentally-friendly cleaning product.

The product is safe on the following:

- High-strength steel
- Cadmium-plated steel
- Mild steel
- Magnesium
- Aluminum
- Titanium
- Acrylic plastics
- Polyimide electrical insulation
- Most paints

R-681 Aerosol joins the Cee-Bee family of aircraft maintenance products that provide improved productivity for the cost-conscious airlines and MROs of today.

Your Cee-Bee representative can provide details about R-681 Aerosol and other Cee-Bee products.
