

# SUPER BEE CLEANER 212 GEL

by Cee-Bee®

## data sheet

**SUPER BEE CLEANER 212 GEL** is a non-solvent, highly concentrated gel specifically designed for cleaning aircraft exterior surfaces.

### BENEFITS

- Very effectively penetrates and removes heavy greasy soils.
- Clings to vertical and overhead surfaces for maximum cleaning action.
- Rinses off easily without streaking even after drying on the surface.
- Safe on aluminum, magnesium, high strength steel and other common aircraft structural metals, good quality paint and acrylic plastic.
- Does not contain organic solvents or any material considered toxic by state or federal regulations.
- Surfactants biodegradable.

### CONFORMS TO

- **AMS 1526A**
- **AMS 1533**
- **BOEING D6-17487**
- **DOUGLAS CSD-1**
- **UA AAM, CHAPTER 11**

Super Bee Cleaner 212 Gel Product Code #20097**

## **NOTES PRIOR TO HANDLING**

**Before using your McGean-Rohco, Inc. products, all safety and operating instructions should be read and understood. If you have any questions, please contact your McGean-Rohco representative before proceeding.**

## **USE PROCEDURES**

Use Super Bee 212 Gel undiluted for removing heavy greasy soil, such as are found on flapwell and wheel well areas and exhaust tracks.

### **With Water Rinse**

1. Apply cleaner with mops, brushes or non-atomizing spray equipment. Start at the bottom of the surface to be cleaned and work upward to avoid streaking.
2. When using spray equipment to apply the cleaner, use a low psi (approx.90) to reduce vaporization. The material will have better cling and will not bounce off of the surface as it does when sprayed on at too high a psi.  
Allow the cleaner to dwell at least 5 until soils are penetrated, then agitate surface with a brush or mop.
3. Rinse thoroughly with high pressure water, starting at the top and working downward. Best results are obtained if the water is approx. 140°F.

### **Without Water Rinse**

1. Saturate rags or mops with cleaner and wipe the surface to loosen the soils.
2. Remove loosened soils with clean, dry rags or mops, turning frequently to avoid redeposition of soils.

Super Bee 212 Gel, diluted with up to 20 parts water, can be used as a non-gel, general purpose cleaner for cleaning light to moderately soiled areas.

## **PROPERTIES**

- Blue gel. No flash point. Pleasant odor.

## **PRECAUTIONS**

- Irritating to eyes and skin. Avoid contact. In case of accidental contact, flush thoroughly with water. If irritation persists, seek medical attention.
