

HONEY BEE™PTDS

Portable Toilet Deodorant Sachet

**A POWERFUL QUATERNARY AMINE-BASED DEODORANT CONTAINED
IN WATER SOLUBLE SACHET FOR USE IN PORTABLE TOILETS**

B

ADVANTAGES

1. Controls odours for long periods of time.
2. Dispels toilet odours quickly.
3. Safe on all materials
4. Easy to handle. The sachet will dissolve when added to water, eliminating the spillage and dusting usually encountered when opening sachets prior to addition.
5. Contains no phenolics, formaldehyde or heavy metals.
6. New high tech quaternary formulation for powerful long-lasting results.

USE PROCEDURES

- Charge the toilet holding tank with clean, clear water as instructed in toilet manual.
- Use one Honey Bee™ PTDS sachet for each 65 litres of water initially charged into toilet holding tank.
- Place required deodorant sachets into the toilet bowl. And allow adequate time for the sachet to dissolve

PROPERTIES

A cherry scented blue powder contained in water soluble sachets.

PRECAUTIONS

The deodorant powder and solution should not be allowed to contact eyes. In case of accidental contact, flood with water for 15 minutes. If any irritation persists, seek medical attention.
