

HONEY BEE™ FRESHENER SOAK 50C

by Cee-Bee®

d a t a s h e e t

HONEY BEE FRESHENER SOAK 50C is a aqueous solution of detergents and perfume designed for deodorizing aircraft toilets in place, toilet parts prior to service work and interior & cargo areas.

BENEFITS

- Effectively combats offensive odors caused by accumulated residue in the toilet tanks.
- May be used in the rinse water of ground equipment used for servicing the toilets to prevent offensive odors from permeating aircraft interiors.
- May be used to deodorize toilet parts prior to maintenance work.
- May be used to deodorize contaminated cargo areas.
- Safe on aircraft structural metals.
- Provided in one gallon bottles.
- Meets requirements of AMS 1476A.

NOTES PRIOR TO HANDLING

Before using your McGean-Rohco, Inc. products, all safety and operating instructions should be read and understood. If you have any questions, please contact your McGean-Rohco representative before proceeding.

Honey Bee Soak 50C Product Code # 25350**

USE PROCEDURES

Inplace treatment of toilets during a layover of six (6) hours or more

1. Drain all toilets and rinse with water.
2. Place 1 gal. of Honey Bee 50C into each double toilet tank (30gal. capacity) or ½ gal. into a single tank (15 gallons capacity)
3. Fill each tank to above the flapper valves with fresh water.
4. Flush each toilet several times and allow to dwell in the tanks until the plane is returned to service.
5. Drain each toilet tank, but do NOT rinse.
6. Charge each toilet with Honey Bee Deodorant 22 prime charge solution.

Mechanical Servicing of Toilets

In place

- To improve the odor and reduce the exposure of workers to hazardous wastes, spray the work area with Honey Bee Freshener 50C full strength or diluted with up to 10 parts water 10 minutes prior to starting work.

In shop

- Toilets and toilet parts taken to the shop for work should be sprayed down with Honey Bee 50 C full strength or diluted with up to 10 parts water at least 10 minutes prior to starting work. The toilets or parts should be rinsed with high pressure water spray.

Deodorizing

- Honey Bee Freshener 50C can be used for treatment of malodors in the toilet basin galley areas caused by human wastes, vomit, food spills etc. and from live cargo wastes and other spills in the cargo area.
- Contaminated areas should be cleaned well with a cleaner like Honey Bee 90 or Super Bee 210 before being deodorized. The area should then be sprayed down with a 10% solution of Honey Bee Freshener 50C.

For use in ground service equipment

- One part Honey Bee Freshener 50C to 100 parts water should be sufficient to sweeten the rinse water in the toilet service ground equipment.

PROPERTIES

- Water-thin, pleasantly scented liquid. Biodegradable

PRECAUTIONS

- Avoid contact with eyes. Do not take internally. For contact with eyes, flood with water. If irritation persists, seek medical attention.
